

Anna Iarinovskaia

Product Designer · Berlin · +49 178 667 94 68 · iarinov@icloud.com · iarinovskaia.com

Product Designer with experience across B2B platforms in sustainability tech, event management, and enterprise SaaS. Works end-to-end with cross-functional teams, integrating AI into the design workflow to streamline ideation, prototyping, and iteration — including shipping code changes to production. Architectural background brings a structured, scalable approach to design.

EXPERIENCE

Product Designer

Purpose Green — Berlin

Sep 2024 - Present

- Implemented AI workflows (Claude Code, Figma Code Connect) within the design team, enabling designers to prototype and ship changes directly in the codebase and design system.
- Identified the lack of a structured onboarding experience and initiated the creation of a new onboarding flow for the B2B platform.
- Led end-to-end design of key portal features, directly contributing to onboarding of new enterprise customers.
- Conducted user testings with customers and potential users, identifying usability gaps and translating insights into actionable product improvements.

UI/UX Designer

Datacapo — Freiburg

Feb 2023 - Sep 2024

- Redesigned the event gate-management platform, improving entry processing efficiency and reducing average wait times.
- Designed event management platform for Red Bull, improving operational efficiency and reducing manual steps for event staff.
- Maintained and extended the design system, ensuring consistency across platform features.

Architect

Gitai Architects & Fiebiger GmbH — Haifa / Kaiserslautern

Feb 2020 - Jan 2022

- Developed floor plans, 3D models, and visual designs applying sustainable and climate-responsive design principles.
- Designed floor plans with a focus on user movement and spatial logic — mapping circulation, zoning, and access for projects like a sports hall and medical facility.

EDUCATION

Full-Stack Software Development

42 Heilbronn

2022-2023

MSc Architecture

University of Stuttgart

2021-2022

BSc Architecture

TU Kaiserslautern

2017-2020

SKILLS & TOOLS

Design: Figma, Framer, Photoshop, InDesign

AI & Dev: Claude Code, Figma Code Connect, Figma Make, HTML, CSS

Research: Usability testing, user interviews, surveys, journey mapping, sitemap

3D & Architecture: Archicad, AutoCAD, SketchUp, Blender
